

Good Evening, Hailey!

Unfortunately, we cannot accept your application to make your base a licensed and registered research facility under PSI's name, as it is deemed too primitive by our standards, as well as violates a few of our rules and regulations (See Article C1, and D3, as well as our Spread Prevention Protocol). As soon as you have amended the small issues here and there, we will send you the equipment requested, and your Facility will be considered a registered PSI Research Facility.

Please, take some time to fix any breaches of protocol before sending us another E-mail. Thank you for reaching out to us, and have a wonderful night,

PSI Research
